

Hi there!

Im Ted.

While I may not have formal paid experience in scriptwriting. I am enthusiastic about this opportunity and confident in my abilities to contribute effectively to your team.

Over the past few years, I have honed my writing skills through various personal projects and content creation for The Wellness Platform. I have experimented with AI prompts for tone and script writing, drawing inspiration from some of my favourite writers on YouTube, X etc. This experimentation has helped me create some insight to craft compelling copy.

In addition to my work with AI tools, I have gained valuable experience writing email newsletters. This experience has taught me the importance of clarity, engagement, and timely delivery—skills that I believe are directly transferable to the role of creating YouTube scripts.

I am particularly drawn to this role because it offers the chance to work and practise with a wide range of YouTube channels. I thrive in fast-paced environments and am eager to learn.

Thank you.

I look forward to hearing from you!
